

Mantis Slider Seat Mount

Part No. MBSLS003

Common uses for this mount:

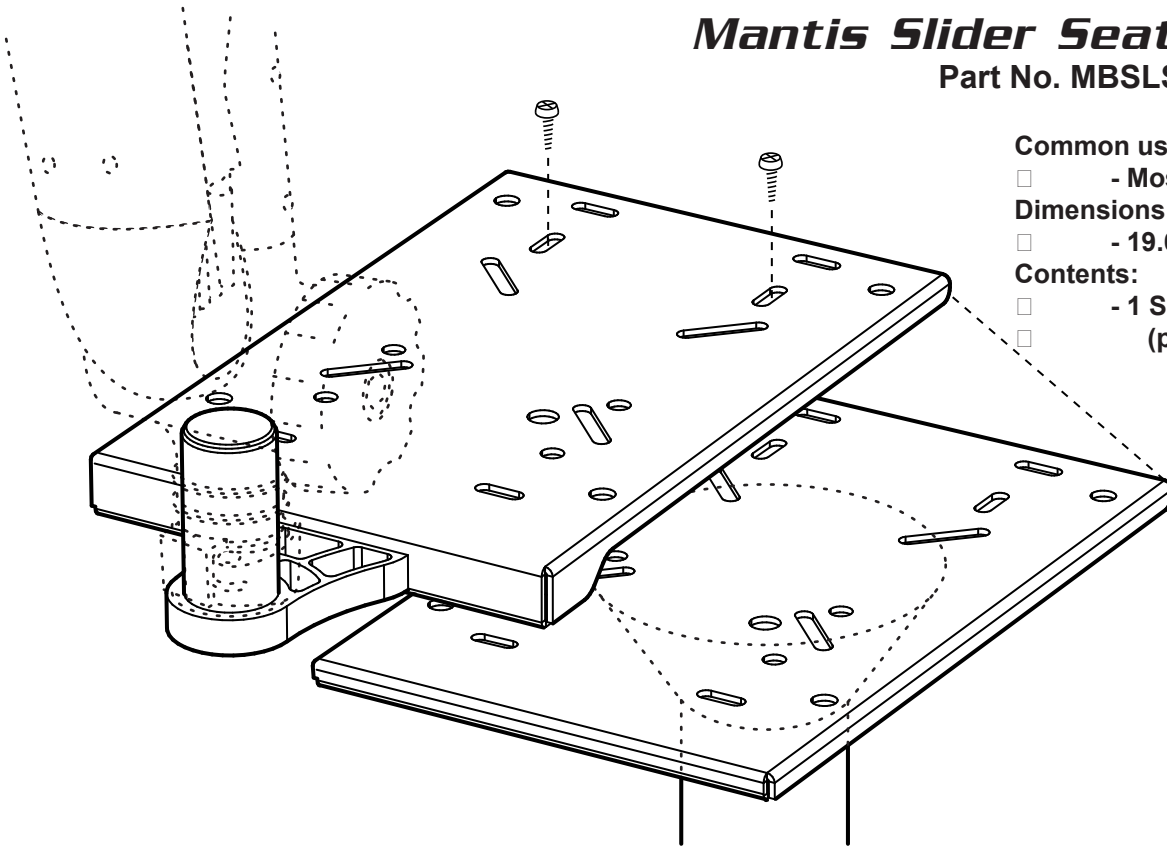

- - Most Slider boat seats

Dimensions:

- - 19.6" L x 10.1" W

Contents:

- - 1 Slider Seat Mount
(powder-coated aluminum)

1 □ REMOVE SEAT FROM PEDESTAL

To remove seat, unscrew the screws from beneath the seat pedestal, and remove chair.

2 □ ATTACH MANTIS MOUNT TO EXISTING SLIDER PLATE

The Slider Seat Mount retrofits over most existing sliders. Additionally, the series of slotted holes are designed to fit existing seat pedestals. Position the new slider mount over the existing Slider. Test-fit the swivel seat to ensure that the vertical post clears the seat back and aligns with slider holes

3 □ REINSTALL SLIDER SEAT

With the new mounting plate now sandwiched between the existing plate and the new plate, replace the seat and tighten screws securely. You can now place the Mantis assembly onto the vertical post of the bracket, and lock in place. *Refer to the manual supplied with Mantis for detailed instructions.*
