 -
 -

Umbrella Base Tube Mount

Post of Umbrella Base

1. SELECT LOCATION/UMBRELLA STAND:

Pro-Techt's Umbrella Base Tube Mount is designed to fit into any commercially available garden type umbrella bases whose vertical post or tube has an inside diameter of 1.75" or greater. For optimal results use a umbrella base that has reasonable weight and/or surface area to provide a stable base, and a knob adjustment to secure the mouint once the tube is placed inside the umbrella baes's post.

2. INSTALL MOUNT

Take the mount and place inside the umbrella base post or tube with with the black plastic cap facing upward. Loosen the knob on the stand's post as necessary to allow the mount to fit inside the post. Tighten knob on the stand's post to secure mount.

3. INSTALL MANTIS

Now place the Mantis assembly onto the vertical post of the bracket, and lock in place. *Refer to the manual supplied with Mantis for detailed instructions.*
